Onwards HR

NEW WARN COMPLIANCE DASHBOARD

See the risk before it becomes a crisis.

Replace compliance uncertainty with greater visibility.

WARN Compliance Dashboard brings federal WARN and state WARN considerations into one clear view. HR and Legal can identify potential exposure earlier, while plans are still taking shape, and make better-informed decisions with fewer surprises.

- Federal WARN
- Plant Closings
- State WARN
- Restructuring
- RIF/Layoff
- M&A

Earlier Visibility

Spot potential WARN exposure while workforce plans are still in motion, not after a notice deadline has passed.

Better-Informed Decisions

Give HR, Legal, and leadership a shared picture of risk so they can weigh options with confidence.

Proactive, Not Reactive

Add more proactive compliance monitoring to the workforce transition process you already run in Onwards HR.

What It Means for You

Exploring Onwards HR?
"A new way to manage difficult compliance requirements and know you are protected from compliance risk."

Already a customer?
"Add an additional layer of compliance visibility to your workforce transition process."
